**RAILWAY DEPARTMENT****"RAILWAY ACT"**

PURSUANT to the provisions of section 7 of the "Railway Act," being chapter 285 of the "Revised Statutes of British Columbia, 1948," His Honour the Administrator in Council has been pleased to approve the following certificate, numbered 892, signed and sealed this 24th day of August, 1956:—

Certificate No. 892.

**"RAILWAY ACT"**

(Chapter 285, R.S.B.C. 1948)

The Pacific Great Eastern Railway Company having made application for an amendment to the Uniform Code of Operating Rules, which became effective on its lines August 26th, 1951, by Order in Council and Certificate No. 832, and the same being the code approved by the Board of Transport Commissioners for Canada by General Order No. 750, dated the 7th day of April, 1951:

And whereas the said Uniform Code makes no specific provision in flagging rules to accommodate construction adjacent to the railway lines and the inherent dangers encountered by falling rocks, blasting, and the like:

And whereas the said Uniform Code makes no provision for the use of radio-telephone with regard to dispatching trains on railways and also the

inherent dangers of micro-wave radio transmission detonating electric blasting within close proximity to such radio transmission:

And whereas the Pacific Great Eastern Railway Company intends to use radio-telephone micro-wave transmission for the transmitting of messages to and from its rolling-stock operating on its lines:

Now, therefore, I, Ray Gillis Williston, Acting Minister of Railways of the Province of British Columbia, in conformity with the above, hereby certify that, pursuant to section 186 of the "Railway Act," being chapter 285, R.S.B.C. 1948, I have amended the Uniform Code of Operating Rules to apply immediately and specifically to the Pacific Great Eastern Railway Company as follows:—

"Where construction or work of any nature is being carried out on or adjacent to the railway, and wherever such work might endanger railway property or the safe passage of trains or rolling-stock, the following rules shall apply:—

- "(a) Rule 41 of the Uniform Code of Operating Rules to be observed in its entirety by all parties concerned;
- "(b) Audible signal systems approved by the Chief Inspector to be installed and operated by the party or parties doing the work;
- "(c) Qualified flagmen to be employed. In order to be qualified, flagmen shall be examined and approved by the railway company on its flagging rules, and the costs of employing them shall be borne by the party or parties performing the work or construction.

"Where the words 'transmitted by telephone' appear in the Uniform Code of Operating Rules, such words shall also mean and include radio-telephone, and where radio-telephone is used in lieu of telegraph or line telephone, the following additional rules shall also apply:—

**"Radio Silence Rules"**

"On railway lines over which rolling-stock equipped with radio-telephone may pass and blasting-powder is to be primed with electric detonators within one thousand feet of such lines, the person or person performing the blasting shall immediately preceding cause 'radio silence signs' to be placed on the right-hand side of the track one thousand feet in each direction from the point where the blasting is to take place, and when the powder has been detonated the signs shall be removed.

"It shall be the duty of every person placing 'radio silence signs' adjacent to the track to notify the train-dispatcher as to the exact mileage and location where such signs are to be placed or removed, and the train-dispatcher may withhold permission for the placing of such signs until all trains in the area have been duly notified, notwithstanding, however, no powder shall be primed with electrical detonators within the prescribed limits until approved signs have been placed.

"Approved 'radio silence signs' shall be three (3) feet wide by two (2) feet high, with six (6) inch white luminous letters on black non-luminous background. Approaching the silence area the board shall read 'radio silence begins,' and the reverse side shall read 'radio silence ends.' The centre of the sign shall be placed not less than three (3) feet and not more than six (6) feet from the level of the track ballast, with the track-side edge of the sign six (6) feet from the gauge side of the nearest rail, and with 'radio silence begins' facing the right side with respect to approaching traffic.

"Where signs indicating radio silence are placed at the side of the track, trains or equipment with radio-telephone shall observe radio silence by switching off the power from all radio-telephones while such equipment is between all signs so placed."

In witness whereof I have hereunto set my hand and seal this twenty-fourth day of August, in the year of our Lord one thousand nine hundred and fifty-six.
